

Solutions for Demanding Applications

Pole Mount

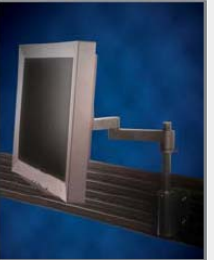

9112 Double

Pivots 90°

Tilts & Turns

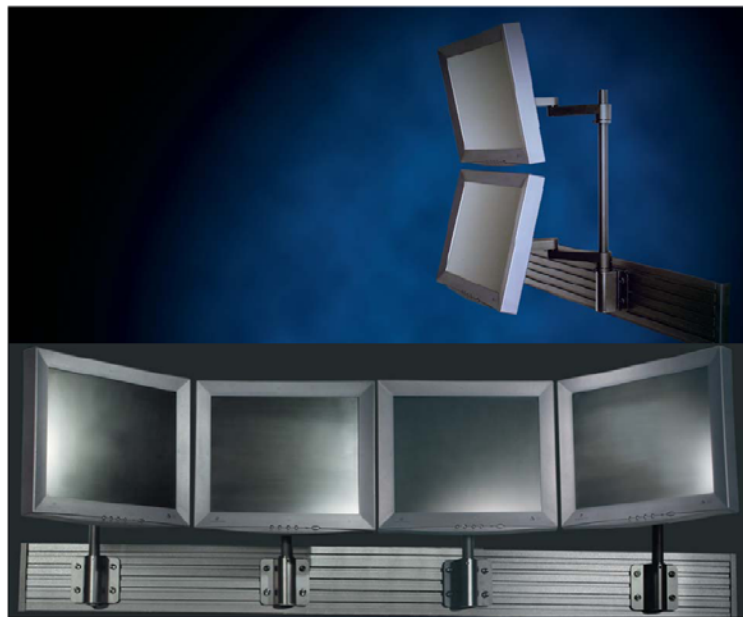

9112 Single

- Various length poles are available for single (9112-S) and double (9112-D) tier use.
- The arm will fold in about 3" of space and extend out 14" from the pole.
- The arm rotates 360° at 3 joints, the tilt mechanism can tilt over 200°.
- Accessory products are available for holding keyboards or notebook computers.
- Mix and match component parts are available to extend or shorten the arms for special applications.
- Cable management is included, allowing the cables to be contained in the arm.
- The LCD monitor can slide up and down the pole for height adjustment.
- The operator can position the monitor with the touch of a finger.
- Friction joints can be adjusted for touch screen applications.
- Various mounts are available for desk, wall, slat wall, and panel system applications.
- Made in U.S.A.

Adapter Plates Available

An adapter plate is needed to attach the arm to the LCD monitor display. You will receive with your set-up one 100MM and one 75MM VESA adapter bracket. We offer a variety of non-VESA compliant adapters.
